

It's time for vodka that matches your vibe: *refreshing, refined, and ready for anything.* We infused Green Owl with green tea extract from Japan to give you a kick of energy, and lightly sweetened it for a long and smooth flavor. (It's also made in small batches and triple-distilled, if you're into that sort of thing.) The first sip will wake up your taste buds, the next will raise your spirits.

**Make a Night of It.**
